**Cc**- change of content

Section/Page #	Original text	(type of correction) Corrected text
2.1.1/ 7	The study also looks at patterns in response design in order to establish the discourse and interactional functions of Blue-card questions.	<b>(Cor)</b> The study also looks at patterns in response design in order to discover the discursive and interactional functions of Blue-card questions.
2.1.1/ 9	(1) When the turn at talk was in English, then I used verbatim reports adjusted to the spoken sources. (2) When both question and answer turns were in a language other than English, I used the English verbatim adjusted to the interpretations extracted from the EP website. In order to assure the reliability of the analysis,	<b>(Cc)</b> (1) When the turn at talk was in English, then I used verbatim reports adjusted to the spoken sources. (2) When both question and answer turns were in a language other than English, I used the English verbatim adjusted to the interpretations extracted from the EP website. In order to assure the reliability of the analysis,

	<p>I have compared the interpretations provided by the EP with the speeches in their original languages.</p> <p>Such situations were, however, rare in my corpus, in total 4 out of 273 Q&amp;A sequences, consisting 1,46% of the whole corpus. Two of those interactions are carried out in German, one in Dutch, and one in Hungarian.</p> <p>(3) When both the Q&amp;A turns are given in the same language, which is other than English I got independent translations of the turn and corrected the verbatim reports using these interpretations.</p>	<p>I have compared the interpretations provided by the EP with the speeches in their original languages.</p> <p>(3) When both the Q&amp;A turns are given in the same language, which is other than English I got independent translations of the turn and corrected the verbatim reports using these interpretations.</p> <p>Such situations were, however, rare in my corpus, in total 4 out of 273 Q&amp;A sequences, consisting 1,46% of the whole corpus.
