44 last line	relevans	relevance
46 line 5, 6	Assistant Professor	Associate Professor
51 between 2nd and 3rd ref.		Järvinen S. On the causes of traumatic dental injuries with special reference to sports accidents in a sample of Finnish children. A study of a clinical patient material. Acta Odontol Scand 1980;38:151-54.

In the journal article the values in Table 5 are misplaced. All values should be separated from the row marked (reference) and begin on the line above. E.g. the fourth row of values belong to Day care centre/school and the fifth row of values to Traffic settings. The printed version of the dissertation is correct.
