

Linköping Studies in Science and Technology  
Dissertation, No. 1441

*ZnO and CuO Nanostructures: Low  
Temperature Growth, Characterization,  
their Optoelectronic and Sensing  
Applications*

*Gul Amin*

**Linköping University**

*Gul Amin* received his M.Sc. degree in 2004 and M. Phil degree in 2006 in physics from Quaid-i-Azam University, Pakistan. He started in October 2008 as PhD student in Physical Electronics and Nanotechnology group/ITN, Linköping University, Sweden. His research field concerns mainly with fabrication, characterization and applications of ZnO and CuO nanostructures. He has also been working on GaAs/AlGaAs multiple Quantum well structures, characterization and processing.
